

## Change with Rapid Results

Sustainably change a company in 100 days: Rapid Results Change enables you to achieve sustainable successes within this seemingly short period of time. With the help of professional coaching and 4 to 10 pilot projects, your project managers can focus completely on challenging business results. By establishing networks via learning platforms the experiences gained can be applied to the entire company and future management decisions.

### Breakthrough: Business Success and Change in Corporate Culture in 100 days.

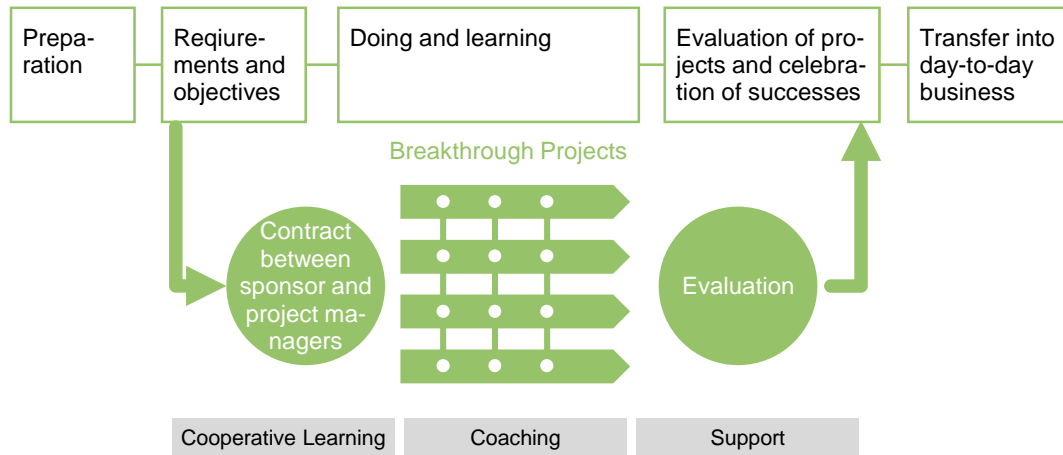

#### Typical Cases

- Stagnating sales success: Profits can only be increased via innovative methods.
- The new strategic orientation of a business segment needs to be incorporated into day-to-day business.
- The new organizational structures have been determined and are to be implemented now.
- A traditional organization needs to be made fit in order to deal with challenges.
- Systems and regulations impede performance – what is needed is a radical change in thinking.

#### Benefits

Our projects have taught us that all those who have successfully participated in a Rapid Results initiative have been proud of their results. Changes have been positively received. Successes via new methods whet one's appetite for more. The top management has a concrete basis for making decisions about what obstacles to success need to be removed and what kind of focuses need to be set in corporate development. And: Rapid Results projects also enable practical development of junior executives.

## Map for 100 days

What is the difference between Rapid Results projects and traditional projects?  
Measurable business successes, Ambitious objectives, Ambitious project managers,  
100-day schedule, Easing of applicable regulations
