

Project Management

This intensive workshop addresses project managers and other project responsables who are seeking for sound and practical project management knowledge that supports them to plan, organize and manage their projects successfully. The workshop takes 2-3 days plus follow-up, depending on the company's specific needs. The participants learn tools and principles step-by-step, exchange experiences and review success factors of effective project management. They practice their newly acquired skills and knowledge in practical exercises and transfer the methodology and their findings to their current project situation.
